DRIVING safety

Top 5 Overall Safety Tips

1. **Don't speed.** Make sure you are giving yourself more than enough time to get somewhere. Never be in a rush because that will lead to bad things.
2. **Avoid distractions.** No cell phone, eating, etc. Keep eyes on road and hands on the wheel.
3. **Don't drive drowsy.** 20% of accidents have sleepiness as a factor.
4. **Wear your seat belt.** Keeps you from being thrown from car.
5. **Watch out for other guy.** Assume everyone else is a bad driver.

Spring Driving Tips

1. Share the road with pedestrians, motorcyclists, and bicyclists! Always watch for them.
2. Beware of potholes.
3. Before you take any medications make sure it is still safe to drive on them.
4. With our spring showers, avoid puddles. If you hydroplane ease off the accelerator but don't break. Increase your following distance.

Watch out for deer

1. Beware of your surroundings.
2. Deer don't travel alone, so watch out for the group.
3. They tend to be on the move around dusk and dawn.
4. Make sure your brakes and tires are in good working conditions incase you need to react in an instant.

5. Have an accident plan in case you hit an animal. Do NOT move the deer. Take pictures, contact insurance company and call 911 if needed.
6. The months are need to increase your watch for deer are October through January.

G.O.A.L: Get Out And Look! Make sure you know your surroundings before you make any moves in the car. Watch out for parked cars and always look in the mirrors.

The driver selection policy has changed a little recently. Review Policy ACS 4.A.06 to stay up to date on that. Remember your driving outside of work always affects your work driving.
